**Subject:** Arrowcreek Golf Course Property

Mr. Krachun,

Here is the Fire Marshal's response to your inquiry -

As a homeowner, you are responsible for maintaining the property that you own. We cannot require you to maintain property that you do not own or **that you** do not have a financial interest in **which would** make you responsible for the maintenance of that property. The owners of the golf course property are, or will be, responsible for the maintenance of that parcel and property. If the HOA takes responsibility, or purchases the golf course property, then it would be responsible for abatement issues.
